WORK EXPERIENCE

Full Stack Developer
Republic Tv

07/2023 - Present   *Mumbai*
Media Company (1 year , 3 months)

Achievements/Tasks
- **Application Development (React) :** Developed the end-to-end development of a scalable SaaS web application using React, ensuring seamless functionality and performance for Republic World's users. Deployed and maintained the application with an emphasis on performance, reliability, and security, ensuring it scales effectively as the user base grows.
- Implemented responsive design to ensure an optimal user experience across different devices and platforms, adhering to modern web standards.
- Collaborated with cross-functional teams, including backend developers and product managers, to integrate APIs, optimize workflows, and meet business goals.
- **Mobile Application Development (React Native)**: Designed and built a feature-rich SaaS mobile application using React Native, available on the Play Store, with seamless integration of third-party APIs and cloud-based services.
- Delivered key features such as push notifications, deep linking, and real-time updates, improving user engagement and business outcomes.
- Focused on creating a secure, high-performance app with streamlined navigation and excellent user experience, following SaaS best practices for mobile environments.
- **Mobile Application Development (Flutter) :** Developed and deployed a SaaS mobile application using Flutter, focusing on cross-platform consistency and high responsiveness.
- Delivered a visually appealing and intuitive interface, with robust backend integrations to ensure that the app scales and performs efficiently.
- Integrated real-time data processing, cloud-based features, and secure authentication mechanisms, aligning with SaaS application standards. Optimized the app for scalability, ensuring seamless user experiences even under high traffic loads, critical for SaaS business models.

WORK EXPERIENCE

Full Stack Developer
Xfinite

11/2022 - 07/2023   *Mumbai,India*
Product Based (9 months)

Achievements/Tasks

- **Live OTT Platform Development (Mzaalo) using React:** Contributed to the development of **Mzaalo**, a live OTT streaming platform, built using **React** for the web interface and available on the web, Play Store, and App Store. Leveraged **React's component-based architecture** to create a highly responsive and dynamic user interface, delivering a seamless viewing experience for users across multiple devices and screen sizes.

- Collaborated with backend teams to integrate APIs, ensuring real-time data streaming and efficient content delivery, crucial for live OTT events and on-demand video playback.

- Designed the CMS to handle various tasks, including user management, content moderation, and scheduling, providing an intuitive interface for non-technical users to operate with ease.

Full Stack Developer
TidalWave Technologies

03/2022 - 11/2022   *Mumbai*
Service Based.

Achievements/Tasks

- **Full-Stack Development on Live Project:** Developed and maintained a live web application using **React.js** with **Redux** for state management, ensuring a seamless and efficient user experience. Integrated various **JavaScript libraries** to extend functionality and enhance the front-end, optimizing the performance and responsiveness of the platform.

- **Designed REST APIs** and created database schemas using **Node.js** for the backend, as well as within **React.js** for front-end data management, ensuring robust and scalable interactions between the frontend and backend.

- Successfully **implemented a payment gateway** using **Node.js**, facilitating secure and reliable transactions for users.

- Developed comprehensive **dashboards** for administrators, enabling easy management of data and users. The dashboards included full **CRUD operations**, built with **PostgreSQL**, **Node.js**, and **Express.js** on the backend, and **React.js**, **Redux**, **CoreUI**, and custom CSS on the front end.

- Focused on ensuring that the application architecture supported scalability, reliability, and maintainability, aligning with best practices for modern web applications.
